

## Savana Island Rat Eradication – RFP Response Form

<b>Name of Company:</b>	
<b>Company point of contact for this RFP:</b>	
<b>Email:</b>	
<b>Phone:</b>	
<b>Date:</b>	

### **Company Information**

*Please provide information about your company on the following:*

- *Year of incorporation*
- *Location*
- *Number of employees*
- *Core competencies*
- *Experience with invasive species eradication and control programs (if any).*
- *Scope of work*
- *Other attributes relevant to the RFP*
- *Attach references, reviews, and other testimonials vouching for your skills and experience.*

--

**Unmanned Aircraft System (UAS) or Helicopter- Platform**

*Please outline details of the proposed UAS or helicopter platforms to be used to complete the services as follows:*

<i>Maximum payload (note that 'payload' is over and above the weight of bait spreading systems, cameras and other attachments)</i>	
<i>Energy source</i>	
<i>Maximum flight distance at maximum payload (including ability to operate at extended line of sight if applicable)</i>	
<i>Mission planning software (UAS only)</i>	

**Bait Spreading System**

*Please describe the bait spreading system encompassing the following attributes (UAS):*

- *Capacity*
- *Swath width*
- *Length of time to fully load*
- *How it needs to be reconfigured for directional and narrow swaths*
- *The live feed monitoring system*

*Please describe the bait spreading system encompassing the following attributes (helicopter): Ability, requirements, and modifications needed to use the Island Conservation-owned spreader buckets; GPS guidance system*

--

**Personnel**

*List the personnel that would pilot and maintain the UAS or Helicopter and bait spreading systems and highlight their relevant experience. Include pilots, backup pilots and mechanics.*

Name	Role	Relevant Experience

**Approach**

*Please provide an overview of how the proposed platforms will apply a total of 6,637 kg of bait over Savana Island (72 ha) in a maximum of 5 days at an overall application rate of 30 kg/ha. And, after an interval of 21 days, repeat the same operation. Please refer to Selection Criteria section in RFP point #3.*

**Risk Management**

*Highlight key risks and constraints that you anticipate facing in executing the project.  
Describe availability of backup UASs or helicopters and equipment.  
Describe availability of backup pilots.*

**Subcontractors**

*Clarify if you are planning to outsource a component of the work and name all subcontractors.*

**Conflicts of Interest**

*If you have any related business relationships or conflicts of interest, please identify them here.*

**Mapping (UAS only)**

*Please outline the geospatial information you require to complete the project and how these might be obtained.*

**Regulatory Approvals**

*Please outline your experience of applying for and obtaining international regulatory approvals or certifications from the Federal Aviation Agency (FAA) for UAS and helicopter operations. Add a list of FAA certifications you hold, if applicable.*

**International Shipping**

*Please outline your experience shipping equipment internationally and within the United States, if applicable.*

**Project Schedule**

*Please confirm how your company will meet the project schedule as described in RFP.*

**Working in the United States**

*Please confirm if your company is legally authorized to work in the United States.*

--

**Price**

*Please provide an estimate of costs to complete the project.*

--

**Supplementary Information**

*Outline any other advantages your company can offer this project or projects of a similar nature. Please refer to Selection Criteria section in RFP point #3.*
